WITH A DESIGN BRIEF TO CREATE a home that would appeal to the young-at-heart, design-conscious empty nester, Greg Natale looked to last century to create a unique and modern interpretation of retro styling in Mirvac's new 'Maestro' display apartment at Harold Park in Sydney's Glebe. Playing to Maestro's Art of Living theme, Natale applied strong geometric forms and a limited colour palette with the result a classic, tailored home with a hint of retro.

In a gesture to the chevron balconies that define Maestro's exterior, the apartment features Greg's White on White 'Chevron' wallpaper from his new wallpaper range for Porter's Paints. The living room also features one of his new rugs from an upcoming collection for Designer Rugs.

To complete the retro look, key furniture, artwork and accessories were provided by Great Dane Furniture, Anibou, Living Edge, Insitu, Blu Dot, Hub Furniture, Spence & Lyda, Orient House, Strand Agencies, BQ Design, Garden Life, Scott Petrie, Artplacement and Dion Horstmans. The Life Series is a collaboration between leaders in style and design Mirvac and Belle magazine to create three pop-up display apartments at Harold Park, each representing a different stage of life.

Harold Park by Mirvac is a sustainable new residential community of 1250 terrace homes and apartments set within 3.8 hectares of parkland leading to the harbour foreshore.
